

**2023 350 SUPER DIVISION COMMITMENT CONTRACT**

This is a contract involving the Oswego Speedway and the 350 Super owner for the 2023 racing season. The purpose of this contract is to reward the 350 Super owner with a weekly increase in the guaranteed minimum purse, while maintaining car counts, and improving the overall quality of the event.

The cost of this contract is \$75, payable by the 350 owner to the Oswego Speedway.

The 350 Super owner shall participate in all point races (feature events) in the 2023 racing season, with 1 (one) miss allowed. The 350 Super car will participate in at least one local promotional visit during the 2023 racing season. This contract stipulates that the Oswego Speedway increase the event payout to \$300 to any 350 Super commitment owner finishing below that payout. This contract is for the regular season only, Classic Weekend is excluded. The car must start the feature to receive the increased payout. If a commitment car is present but does not take the green flag at the start of the feature, the payout will be \$150.

The 350 Super owner that misses more than 1 (one) regular season points event will not be paid any additional commitment funds and will be charged for any commitment funds already paid out in 2023. Missing more than one regular season event effectively voids this contract.

Once qualifying is completed, 1 (one) non-qualified 350 Super commitment car will be added to the feature event. The option is available to one 350 Super commitment car per event, with the current season point standings having the first option. Each 350 Super commitment owner has 1 (one) option to use for the 2023 regular season. This option is not available on Classic Weekend.

The 2023 350 Super commitment contract is offered first to the top 24 finishers in the 2022 350 Super final point standings - there may be additional openings if any of the top 24 opt out. There will be a total of 24 350 Super commitment contracts offered for 2023.
